

Help with statistics – people

If you are...

A University student

Ask your supervisor or tutor, or ask your maths help centre if they can help:

- DMU: <http://www.library.dmu.ac.uk/Services/LSS/index.php?page=352>
- University of Leicester: <http://www2.le.ac.uk/library/about/news/maths-help-centre-now-open>
- University of Loughborough: <http://www.lboro.ac.uk/departments/mlsc/>
- Sheffield Hallam University: <https://maths.shu.ac.uk/mathshelp/index.php>

University staff

Approach your department. If you are at the University of Leicester and working on a research proposal or funding bid, the Clinical Trials Unit or NIHR Research Design Service may be able to help. Neither are able to advise on working with your data.

Working on a “Hosted” research study in UHL

Approach the funder as it is their responsibility to offer this help.

Working on a “Sponsored” research study in UHL

If UHL is the sponsor, see below. If another body is the sponsor, approach them. If you have an academic connection, approach your university (see above).

Working on a research study sponsored by UHL, or a member of UHL staff not covered in any of the above categories

The Library has some informal contacts. Please email one of the libraries, giving details of what you would like help with, and we will pass your enquiry on. Please note that we cannot guarantee that any of our contacts will be able to help.
